## Large and easy to dispense and fill (refilling opening)

A large semicircular opening. Perfect for dispensing large quantities or measuring with a spoon.  
- Orifice size: 25mm × 55mm

## User-friendly orifice size

Works great with various seasonings, from finer products such as salt and pepper, or more granular ingredients like sesame seeds or soup stock granules.  
- Orifice size:  $\phi$  5mm

## Easy-opening design

Flanged rim makes the cap easy to open.
